To Whom It May Concern:

We are so pleased with the great job that Torrey Interiors did in remodeling our corporate condominium at 2211 E. Camelback Drive in Phoenix. We started with a dated and unimpressive unit and asked Bill Torrey to turn the unit into something which would rival a Four Seasons luxury suite. Bill took this direction and developed a design plan which accomplished this goal. He selected and coordinated with several different contractors to change the flooring, the walls, the lighting, and he went above and beyond in shopping for unique pieces always keeping our tight budget in mind. The list of custom touches that Torrey Interiors brought to the project are too long to list. He communicated very well with me throughout the project and professionally steered me through a litany of choices. I highly recommend Torrey Interiors for any design or renovation project that you are considering. Please ask Bill if you'd like to see the work that they did on our behalf and he can coordinate a showing.

If I can answer any questions or be of help to you in any way don't hesitate to look me up.
